

Thermometers

Parents are the main consumer for healthcare items such as thermometers.

Thermometers function as impulse items that parents will always want to keep in stock at home – especially towards flu/fever season. Such infections always spread very quickly at schools, especially among primary school students.

We offer a large variety of thermometers to please every age demographic & consumer. We suggest keeping each of our thermometers in stock, especially throughout the fall & winter months.

Merchandising Opportunities:

Clip Strips:

All thermometers are available in a Clip Strip display format. All clip strips come pre-loaded and are delivered ready to hang. Clip strips offer a cost effective & strategic display option as they take up virtually no retail space and allow you to maximize your retail planning strategy.

We suggest the following:

- **Clip Strip: Thermometer Digital F**
Item #: CS710 UPC: 063636 887100
- **Clip Strip: Thermometer C/F**
Item #: CS720 UPC: 063636 887209
- **Clip Strip: Digital Thermometer C/F**
Item #: CS730 UPC: 063636 887308
- **Clip Strip: Zoomometer Thermometer**
Item #: CS770 UPC: 063636 887704
- **Clip Strip: Thermometer Mercury Free**
Item #: CS750 UPC: 063636 887506
